

Pliè Shelving System

UTIL

Pliè is a flexible shelving system that combine elegant details that intelligently build up a range of storage solutions for your home or office using as little material as possible. The side walls and shelves are shaped of thin aluminium sheet. Its beautiful folds are carefully made to allow a smart construction of each element making it a robust piece of utilitarian furniture while adding fine points of character in every angle. The range combines self-standing and wall mounted solutions, with or without sliding doors in any colour of your choosing.

Designed by: FROM INDUSTRIAL DESIGN
